PREFACE

This fourth volume of the index to the 1840 federal census for the State of Illinois was taken from National Archives microfilm rolls M704-65 through M704-68.

Every effort was made to copy the names as accurately as possible but the spelling and penmanship of the various county enumerators ranged from very good to very bad. As a result there are, no doubt, some names that are incorrect. As noted in the preface to the first three volumes, it would have been unwise to have attempted to correct the spelling as such an attempt might have compounded the error. In some instances a name could have been interpreted two or more ways. Therefore, anyone using this index is urged to check for all possible spellings and to go by sound as well as spelling as many names probably were written as they sounded to the enumerator.

There were some names that were partially or wholly illegible but whenever it was possible to do so, they were included within the index with a question mark. There were thirteen partially illegible names that were impossible to alphabetize and they will be found at the end of this index.

Several forms of "Senior" and "Junior" were used. In this index, all are shown as "Sr." and "Jr."

There were peculiarities noted in several counties:

McDONOUGH COUNTY - Much of the handwriting was very difficult to read. Either the spelling was equally as bad or the poor penmanship made it impossible to be certain the names were deciphered correctly. Many names and initials were not capitalized, however, all have been in this index. In some instances, letters, particularly vowels, seem to have been omitted.

McLEAN COUNTY - This handwriting was exceptionally good but it was sometimes difficult to differentiate between "n" and "u".

MENARD COUNTY - Page 311 was duplicated on the microfilm.

MONROE COUNTY - This handwriting was exceptionally good, however, it was sometimes difficult to distinguish between a "u" and a double "e" within a name. Occasionally an "i" was not dotted, making it uncertain whether the letter was an "e" or an "i" unless the name was such that it could only be one or the other.

MONTGOMERY COUNTY - The enumerator listed one academy and seven common schools, some of which were identified only by township and range numbers. Rather than scatter the schools alphabetically throughout the index, they were alphebetized under the heading "Schools" and will be found on Pages 67 and 68.

MORGAN COUNTY - At a glance, the handwriting for the first 65 schedule sheets does not appear to be particularly bad, however, this compiler found some of it difficult to read. Many letters were poorly or unusually formed and since the enumerator was not consistent, it was difficult to establish any sort of pattern or guide by which to decipher some of the hard-to-read names with any degree of certainty. There was an unnumbered schedule sheet between 413 and 414. In this

index the unnumbered schedule sheet has been designated 413a. Schedule sheet 457 was duplicated on the microfilm. Particular attention is called to schedul sheets 457 through 478. These sheets contain some of the worst handwriting th compiler has ever attempted to read and no guarentee is made that the names were deciphered correctly.

OGLE COUNTY - The bottom part of schedule sheet 2 was torn, making it impossibl to read the last two names on the sheet. It was difficult to distinguish between "s" and "z" within a name.

POPE COUNTY - The handwriting was bad and the right hand side of some schedule sheets was blurred on the microfilm, making first names and initials difficult to read. In some instances the first name or initial was not reproduced at all

PUTNAM COUNTY - The handwriting on schedule sheet 194 has faded so badly that it was difficult to read some names and impossible to read others. Every effo was made to read and include them in this index, but persons searching in this county are urged to check this sheet on the microfilm for themselves.

RANDOLPH COUNTY - Menard Seminary and Chester Academy have been listed under "Schools" on Pages 67 and 68 of this index.

ROCK ISLAND - Most given names were either abbreviated or apostrophized. Apostrophes were not used in this index which accounts for some of the unusual spellings. Also, the enumerator used some unusual abbreviations.

The format of this index includes the head of the household followed by the county of residence and the census page number where the name was found. County abbreviations used in this volume:

Mcd - McDonough	Ogl - Ogle
Mch - McHenry	Peo - Peoria
Mcl - McLean	Per - Perry
Men - Menard	Pik - Pike
Mer - Mercer	Pop - Pope
Mon - Monroe	Put - Putnam
Mot - Montgomery	Ran - Randolph
Mor - Morgan	Roc - Rock Island

Alphabetically, the counties of Moultrie, Piatt, Pulaski and Richland would fall within the above group, however, they were not formed until 1843, 1841, 1843 and 1841 respectively. Anyone searching for persons who may have lived in 1840 in the areas comprising these four present-day counties should check the parent county or counties (see map on Page vi).

Information for each household not included in this index but available on the microfilm includes:

1) Age statistics for household members - white.
2) Age statistics for free colored persons and slaves.
3) Number of persons in each household employed in mining, agriculture, commerce, manufacturing and trades, navigation of oceans, canals, lakes and rivers, learned professions and engineers.
4) Pensioners for Revolutionary or military service and their ages.

5) Age statistics for deaf, dumb, blind or insane white persons and whether public or private charges.

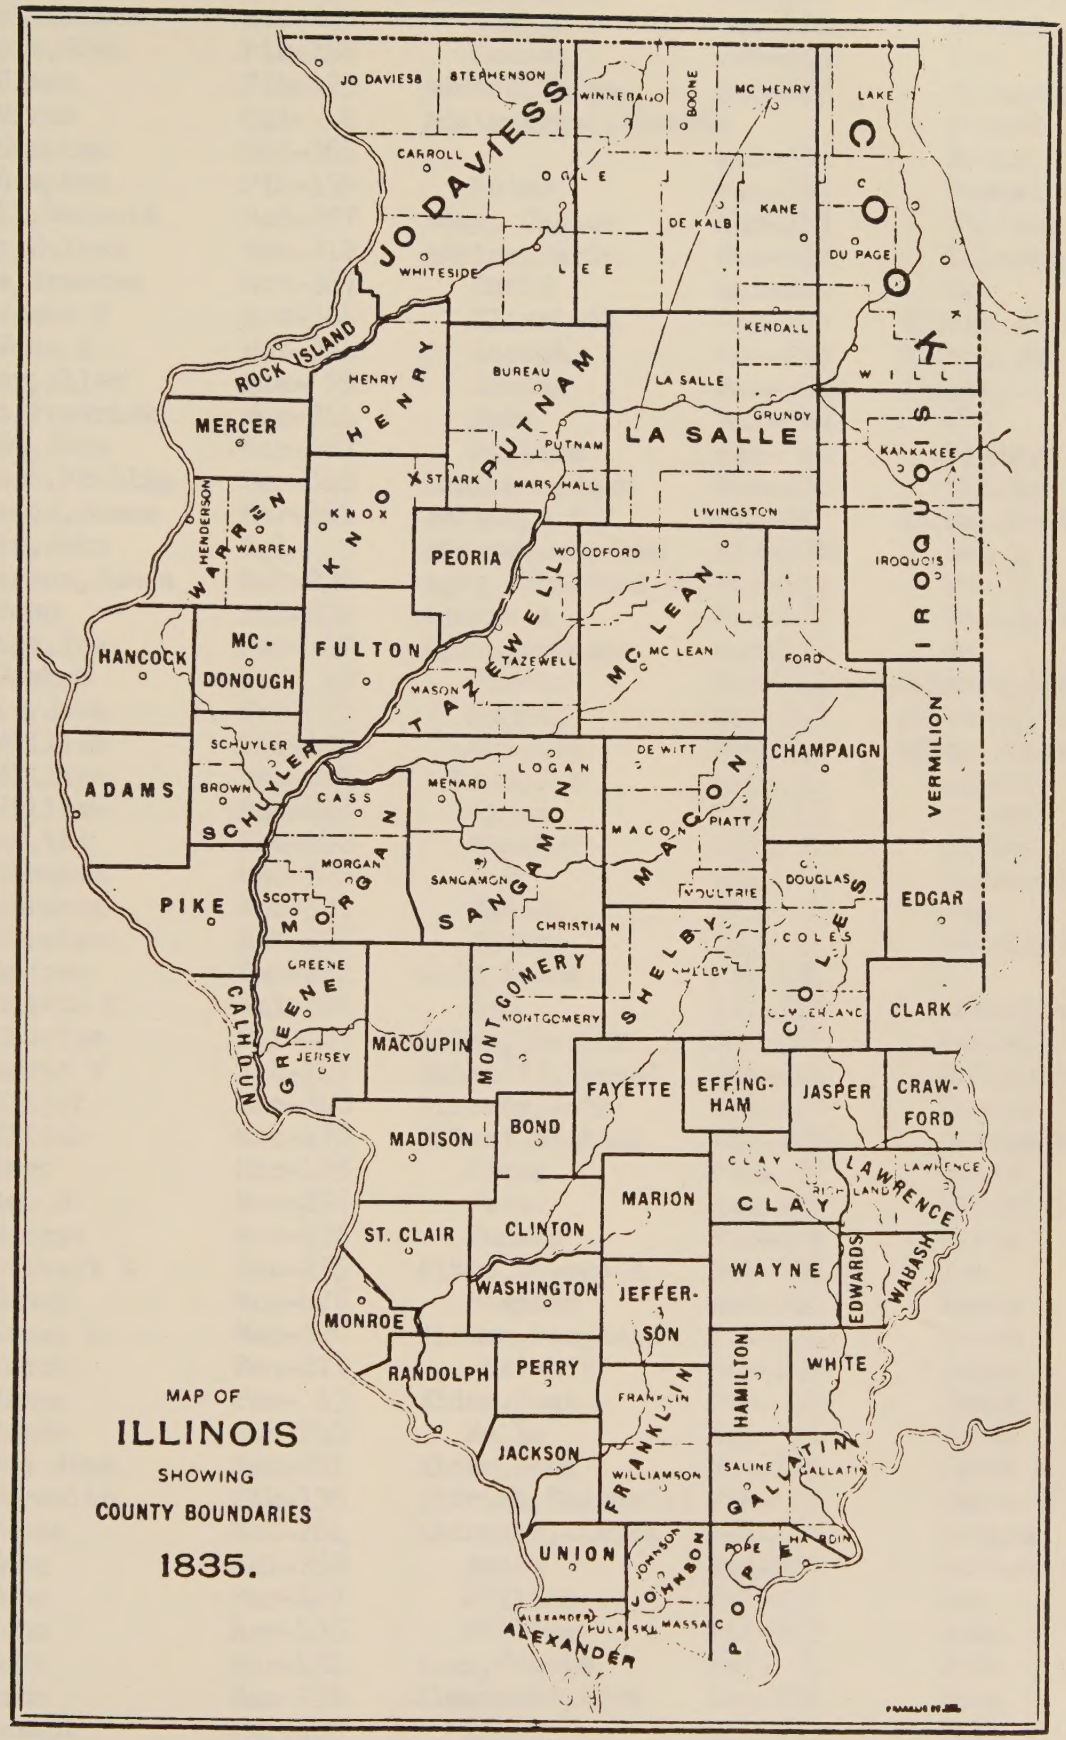
6) Age statistics for deaf, dumb, blind or insane colored persons and whether public or private charges.

7) Information on persons attending school.

Those who do not have access to the microfilm can obtain this additional information for $3.00 per head of household, or 5 for $12.50, by writing to:

YE OLDE GENEALOGIE SHOPPE
P.O. BOX 39128
INDIANAPOLIS, IN. 46239

Please give name of the head of household, the county and page number, in your request.



MAP OF
ILLINOIS
SHOWING
COUNTY BOUNDARIES
1835.

No counties were formed during 1840. The above map is from Counties of Illinois, Their Origin and Evolution, Secretary of State's Office, Springfield, Illinois.
